

SEHAR TAHIR

React.js Frontend Developer | Web Developer

Khanpur, Pakistan | sehartahirofficial@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend React Web Developer with hands-on experience building responsive, production-ready web applications using React.js and Tailwind CSS. Currently serving as an Associate Web Developer at the Directorate of IT, Islamia University of Bahawalpur, while completing a BS in Information Technology (CGPA 3.87).

CORE SKILLS

Languages: JavaScript (ES6+), Python, PHP

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Daisy UI, Material UI, Responsive & Mobile-First Design

Backend & Database: Node.js, Express.js, MongoDB, Laravel (familiar)

Tools & Practices: Git/GitHub, Figma-to-Code, REST API Integration, Component-Based Architecture

EXPERIENCE

Associate Web Developer | Directorate of IT, IUB

May 2026 - June 2026

- Redesign the affiliation portal of The Islamia University of Bahawalpur, ensuring responsive, cross-browser performance.
- Collaborate with the IT team to plan, design, and implement front-end features, improving usability and page-load efficiency.
- Translate design requirements into clean, reusable component-based code following institutional coding standards.

React & Next.js Fellow | Bytewise Limited

3-Month Fellowship

- Completed fellowship in frontend web development covering HTML, CSS, JavaScript, React.js, Tailwind CSS, and Material UI.
- Built and shipped web applications and reusable UI components, applying clean code principles and industry best practices.
- Collaborated in a fast-paced, mentor-led environment on real-world frontend development tasks and code reviews.

Advanced Web Development Trainee | NAVTTC @ Devcastle

- Completed full-stack training covering frontend (HTML, CSS, Bootstrap, JavaScript) and backend (PHP, Laravel) development.
- Delivered multiple practical web projects, strengthening end-to-end development skills and professional coding practices.

PROJECTS

UniHirex - University Recruitment Platform (Final Year Project – In process)

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Architecting a full-stack recruitment platform connecting students, alumni, and recruiters within the university ecosystem.
- Implementing scalable state management with Redux Toolkit and RESTful API integration for real-time data handling.

Personal Portfolio Website | [Live Link](#)

Technologies: React.js, Tailwind CSS, EmailJS, Custom Chatbot Integration

- Designed and developed a fully responsive, theme-switchable (dark/light) portfolio and integrated contact-form via EmailJS.
- Built an interactive no-code chatbot feature to improve visitor engagement and showcase project work dynamically.

Uni Grade Book | [Live Link](#)

Technologies: React.js, Tailwind CSS

- Built a web application enabling students to review and select professors based on grading trends and feedback, improving academic decision-making.

Nexcent - Landing Page | [Live Link](#)

Technologies: React.js, Tailwind CSS, Figma

- Converted a Figma design into a fully responsive, production-ready company landing page with pixel-accurate component implementation.

Web Dev Site | [Live Link](#)

Technologies: React.js, Material UI

- Developed a platform for sharing developer-focused content with a clean, component-driven UI built on Material UI.

EDUCATION

Bachelor of Science in Information Technology

2023 - Present

Islamia University of Bahawalpur | 7th Semester | CGPA: 3.87

Intermediate (Pre-Medical)

2020 - 2022

Alpine Girls College Khanpur | 90.45%

Matriculation

2018 - 2020

Central Public Higher Secondary School | 90.81%

CERTIFICATIONS

Introduction to Frontend Development | Coursera

Learned the fundamentals of frontend development, how websites work, and the role of HTML, CSS, and JavaScript in building user interfaces.

[Verify Certificate](#)

Introduction to Backend Development | Coursera

Learned the fundamentals of backend development. Understood backend architectures and how backend systems support the frontend.

[Verify Certificate](#)

Programming with JavaScript | Coursera

Developed a strong foundation in JavaScript including variables, functions, loops, DOM manipulation, and basic problem-solving.

[Verify Certificate](#)

HTML & CSS in Depth | Coursera

Gained hands-on experience building responsive layouts, modern UI designs, and well-structured web pages using HTML and CSS.

[Verify Certificate](#)

React Basics | Coursera

Learned core React concepts such as components, props, state, JSX, and building dynamic and reusable user interfaces.

[Verify Certificate](#)

Version Control | Coursera

Understood Git and GitHub workflows including repositories, commits, branches, and collaboration using version control systems.
